

# CoreView Workflow Automates, Eases Office 365 Administration

## Workflows Drive Policies, Efficiencies, Security and Savings.

Workflow automation can reduce provisioning and deprovisioning tasks from 10 to 20 hours a week to 10 minutes, saving 1,000 hours a year in manual IT labor.

Stop Cloud Attacks

Provision Properly

Automate IT Tasks

“ Nearly all successful attacks on cloud services are the result of customer misconfiguration, mismanagement and mistakes. ”

GARTNER REPORT  
2019 Security Priorities

## Provision and Deprovision Users Safely

- **WORKFLOW TEMPLATES AUTOMATE PROVISIONING/DEPROVISIONING**  
Easily create and automate provisioning and deprovisioning processes. This ensures users have the right licenses and access to the right applications and infrastructure. You can now “clone” users to reduce errors and speed provisioning.
- **REDUCE ERRORS, INCREASE SAFETY**  
User provisioning and deprovisioning, are prone to error, allowing successful cloud attacks. Workflows eliminate these mistakes.

## Automate IT Tasks, Reduce Mistakes

- **STREAMLINE ADMINISTRATION THROUGH AUTOMATION**  
Take the guesswork out of account management, license management, and security and compliance operations.
- **PROTECT AND UPDATE ACTIVE DIRECTORY**  
Common AD tasks can be automated, insuring they are done correctly and on time.

## Secure office 365 with Policy

- **COREVIEW SECURE SCORE DRIVES POLICIES, WORKFLOWS**  
CoreView adds depth and detail to Microsoft Secure Score, supporting fine-tuned security policies and automated implementation.
- **POLICY MANAGEMENT**  
Create, automate and apply policies that handle every aspect of Office 365 administration.
